

E-Scrap 2009 Conference Exhibitors

A1 Assets, Inc. - Silver Sponsor

Orlando, Florida

Ph: (407) 339-7030

Web site: www.a1assets.com

Booth # 408

A1 Assets is a multi-million dollar licensed and insured processor of electronics for recycling. For the past several years, A1 Assets has been providing first class service to government agencies and companies throughout the state of Florida. A1 Assets services customers of all types, including commercial real estate companies, hospitals, universities, manufacturing plants, retail outlets, local, state and federal government agencies.

Access Computer Products

Loveland, Colorado

Ph: (970) 612-2930

Web site: www.accessrecycling.com

Booth # 310

Access has been recycling a broad-range of electronics for 22 years, and their product and service lines continue on a robust growth path. Monthly, Access processes 500,000 units of all types of electronic products and components. In particular, they have established strong, innovative processes for acquisition, refurbishment, and remarketing of wireless handsets, notebook computers, and empty ink and toner cartridges.

Aggregates Equipment, Inc

Leola, Pennsylvania

Ph: (717) 656-2131

Web site: www.aggregatesequipment.com

Booth # 313

From a single piece of equipment to a turn-key engineered system, Aggregates Equipment, Inc. has the experience and skills to provide the best solutions to meet customers' material processing equipment needs.

Alan Ross Machinery Corp.

Northbrook, Illinois

Ph: (847) 480-8900

Web site: www.rossmach.com

Booth # 432

Alan Ross Machinery has North American's largest inventory of used recycling equipment and new scrap processing equipment.

American Pulverizer Company

St. Louis, Missouri

Ph: (314) 781-6100

Web site: www.ampulverizer.com

Booth # 307

Since 1908, American Pulverizer has manufactured heavy-duty, reliable reduction equipment. American Pulverizer slow speed shredders and ring crushers have been used to destroy and liberate a variety of e-scrap including computer servers, mainframes and batteries. American Pulverizer crushers are known for unsurpassed liberation and uptime. Along with their subsidiary, Hustler Conveyor Co., American Pulverizer can offer complete systems. American Pulverizer is proud to celebrate 100 years of quality and service.

Balemaster

Crown Point, Indiana

Ph: (219) 663-4525

Web site: www.balemaster.com

Booth #114

For over 60 years, Balemaster has distinguished itself as the leading worldwide manufacturer of heavy-duty reliable horizontal balers, shredders, hoppers, fluffers and perforators to meet nearly any requirement. Balemaster is the world leader in automated waste handling and automated baler technology.

Basel Action Network

Seattle, Washington

Ph: (206) 652-5555

Web site: www.ban.org

Booth # 428

BAN defines best policies and practices based on existing international laws and the principle of environmental justice, produces documentaries of the worst practices, and is creating an accredited third-party certification program for recyclers, refurbishers and their downstream.

Battery Solutions, Inc.

Howell, Michigan

Ph: (800) 852-8127

Web site: www.batteryrecycling.com

Booth # 216

Battery Solutions offers battery recycling solutions for businesses, governments, and households to better service environmentally conscious consumers and satisfy

compliance with government regulators. BSI was formed in 1991 to provide clients throughout the US with safe, responsible, and cost-efficient battery waste management recycling programs. They manage every quantity and type of battery manufactured. All batteries are recycled, never landfilled!

Blancco Oy Ltd.

Joensuu, Finland

Ph: 00358-207-433-850

Web site: www.blancco.com

Booth # 230

Blancco software is the proven data erasure solution for millions of users around the globe and offers one of the industry's most certified erasure software. The company serves users across a wide range of industries, including banking, finance, government and defense, as well as refurbishing and remarketing professionals. Blancco operates from an extensive network of international offices and partners across Europe, North America, Asia, and Australasia. More information is available at www.blancco.com.

Boliden Mineral AB – Gold Sponsor

Skelleftehamn, Sweden

Ph: 46-910-773-901

Web site: www.boliden.com

Booth # 103

Boliden extracts metals and byproducts from secondary raw materials, as well as from concentrates. The smelters are located in Scandinavia: The copper-lead smelter at Ronnskar, Sweden; the copper-nickel-cobalt smelter at Harjavalta, Finland; the zinc smelter at Kokkola, Finland; the zinc smelter at Odda, Norway and Boliden Bergoe; the secondary lead smelter at Landskrona, Sweden. Secondary raw materials are imported to Boliden smelters on a large scale from countries all around the world. Raw materials include: Copper scrap, copper-nickel-cobalt scrap, precious metals scrap, copper-zinc ashes, residues, drosses, sludges, slimes, solutions, sweeps, catalysts, slags, EAF dusts, electronic scrap and waste. Boliden Bergsoe recovers metals from recycled materials (mainly used car batteries), and reprocesses lead-tin solder from the electronic industry for re-use. Boliden's smelters are world leaders in sustainable recovery and recycling of base and precious metals. Operations comply with environmental constraints set by governmental authorities.

BrokerBin.com – Platinum Sponsor

Rochester, Minnesota

Ph: (866) 241-0639

Web site: www.brokerbin.com

Booth # 202-203

BrokerBin.com is the world's largest online marketplace for the IT & Telecom industries; specializing in refurbished, new & end of life equipment. BrokerBin's business-to-

business wholesale network is exclusively for brokers, resellers and integrators, with over 10,000 members in 63 countries.

C.H. Robinson

Eden Prairie, Minnesota

Ph: (952) 937-8500

Web site: www.chrobinson.com

Booth # 210

CH Robinson Worldwide is one of North America's largest third-party logistics companies. CH Robinson Worldwide is on-asset-based and able to work with truck, rail, ocean and air carriers to serve customers with a single call.

Cali Resources, Inc.

San Diego, California

Ph: (619) 661-5741

Web site: www.caliresources.com

Booth # 124

Cali Resources Inc. provides full service recycling and asset recovery for electronics, electrical equipment, computers, storage devices, monitors, televisions, image display devices, peripherals, and obsolete equipment. With locations in the U.S. and Mexico, Cali Resources boasts a 1,000,000 sq. ft. ISO 14000 certified facility, the largest Cathode Ray Tube washing facility in North America. Prominent OEMs rely on Cali Resources to provide NAFTA-sanctioned cross-border refurbishment, fulfillment, and recycling from locations in San Diego, Tijuana, and Mexicali. The company offers complete and comprehensive reporting of downstream material management for North America's largest CRT washing facility, capable of processing more than 5,000 tons monthly, with up to 15,000 tons capacity supported by a completely self-contained water treatment plant and power supply.

Call2Recycle

Atlanta, Georgia

Ph: (678) 419-9990

Web site: www.call2recycle.org

Booth # 321

Call2Recycle is the only free and easy recycling program that promotes green business practices and helps communities care for the environment through its network of 30,000 rechargeable battery and cell phone collection points across North America. Sign up today, and join other businesses who have helped Call2Recycle divert more than 50 million pounds of rechargeable batteries from the solid waste stream.

CHWMEG, Inc.

Pittsburgh, Pennsylvania

Ph: (412) 826-3056

Web site: www.chwmeg.org

Booth # 224

CHWMEG, Inc. is a non-profit trade association representing over 500 member enterprises. Member support includes comprehensive reviews of waste treatment & disposal facilities and recyclable material processors worldwide (including e waste facilities). Members receive high quality, objective, accurate information concerning potential business risk at reviewed facilities. A unique cost sharing approach leads to significant member savings (over \$27 million is documented!) while increasing facility detail. Members additionally benefit from networking with peers at CHWMEG meetings, outreach activities, etc.

Cinco Electronics Recycling - Platinum Sponsor

Austin, Texas

Ph: (512) 693-8888

Web site: www.cincoer.com

Booth # 404

Cinco Electronics Recycling is a complete electronics processor. Since 2000, Cinco has developed some of the best processes that are environmentally safer for all commodities, from plastics, CRTs and circuit boards to all the different metals.

Clean Earth Systems

Tampa, Florida

Ph: (800) 282-4293

Web site: www.cleanearthsystems.com

Booth # 410

Since 1993, Clean Earth Systems has been at the forefront of innovative techniques in Haz-Mat container development. Clean Earth Systems manufactures the highest quality containers in the industry and continues to expand their product line to meet customer demands. Clean Earth Systems has 12 warehouses strategically located throughout the U.S. to ensure the very best delivery times in the industry.

Colt Recycling

Merrimack, New Hampshire

Ph: (603) 429-9966

Web site: www.coltrefining.com

Booth # 331

Colt Recycling, the e-scrap processing division of Colt Refining, Inc., is the largest processor of scrap electronics in the Northeast. Colt offers professional, domestic processing solutions to the Fortune 500, Telecom and OEM markets utilizing our custom designed shred/separation/destruction system. Colt also specializes in the outright purchase of precious metal bearing materials and commodities from e-scrap collectors and demanufacturers nationwide.

Colt Refining, Inc. – Gold Sponsor

Merrimack, New Hampshire

Ph: (603) 429-9966

Web site: www.coltrefining.com

Booth # 332

Colt Refining, Inc. operates the largest fully permitted precious metals refining facility on the East Coast. The operation was designed to process all types of PM bearing materials and includes state-of-the-art Thermal Oxidizing Systems, Induction Melting Equipment, Milling/Blending/Sampling Process Equipment and Chemical Processing Lines. Their in-house ICP and Fire-Assay labs allow customers to receive accurate results in a timely manner. All forms of PM bearing E-Scrap are processed by Colt insuring our customers receive maximum recovery values.

Creative Recycling Systems, Inc. – Platinum Sponsor

Tampa, Florida

Ph: (813) 621-2319

Web site: www.crserecycling.com

Booth # 133

Creative Recycling Systems, Inc. was founded in 1994 with the mission of providing private companies, local, state and federal government institutions with electronics recycling solutions that represent a viable, economical alternative to environmental contamination. The company has led the industry by incorporating innovative methods into the processing of obsolete electronics. It has invested in cutting-edge equipment to shred, sort and separate equipment into its original components which are further refined and recycled into new products. The goal is zero waste. Of the thousands of tons of equipment that enter their facilities, less than one percent actually enters the waste stream. And of that one percent, all of it is 100 percent contaminant free.

CRT Heaven Ltd.

Highbridge, England

Ph: 01278 786641

Web site: www.crtheaven.com

Booth # 119

CRT Heaven had developed the only UK-designed and manufactured machinery to facilitate the WEEE-compliant automated processing of end-of-life cathode ray tubes from televisions and IT monitor waste. CRT Heaven's process produces end-materials that satisfy the stringent specifications of end-users and ensure a revenue stream through closed loop recycling.

CRT Processing, LLC – Silver Sponsor

Janesville, Wisconsin

Ph: (608) 754-3400

Web site: www.crtprocessing.com

Booth # 228-229

CRT Processing, LLC, a National Recycling Organization focused on Electronic and

Universal Waste Management, is a privately held company that is part the Hendricks Holding Group (www.hendricksholding.com), effective 2007. CRT has six recycling services locations across the U.S. providing end of life recycling (de-manufacturing), asset recovery, commodities management, and logistics management services that support major market segments: OEM, retail, Fortune 500 and local municipality organizations. Additionally, CRT's unique value proposition extends to recycling services of mercury containing devices (florescent lighting, mercury lamps) in select operations across the U.S., and the manufacturing of recycling equipment for mercury containing devices and glass to clean glass processing.

CycleLution Inc.

Diamond Bar, California

Ph: (626) 478-6467

Web site: www.cyclelution.com

Booth # 306

CycleLution, Inc., with over 15 years of combined experience in the recycling industry, provides unparalleled software development, compliance and marketing consulting services to electronics recyclers. Its products and services include 1.CycleLution Software - the One and Only Web-Based Software System Designed for Recycling Operation 2.ISO Consulting 3.Compliance Consulting 4.Export freight Forwarding 5.Website Development with Search Engine Optimization 6.Marketing Strategy and Marketing Material Development 7.Operation, Facility Setup, and Management Consulting.

DC Solutions

Surrey, British Columbia

Ph: (604) 575-2230

Web site: www.dcsolutionsonline.com

Booth # 420

DC Solutions buys, sells, rents, repairs and leases most barcode equipment. We buy used and surplus barcode scanners, hand held portable terminals and label printers. Their clients benefit by going green and add to their IT budget by selling their used or surplus barcode equipment. While DC does supply new equipment solutions, they specialize in supplying used, legacy products to help companies maintain a platform of products and save money on their IT budgets. They offer repair contracts, flat rate repairs and time and material repairs down to the board level on most barcode scanning equipment. With locations in both the East and West Coasts of the US and in Canada, they are well positioned to help you with any barcode related solutions and repairs.

Desert Micro

Jacksonville, Florida

Ph: (904) 247-4285

Web site: www.desertmicro.net

Booth # 423

Desert Micro is a leader in waste management software, providing integrated solutions for the waste, recycling, and logistics industries. They utilizes Microsoft technology, certified accounting methods, intelligent routing and GPS monitoring, along with comprehensive reporting to give you a solution to manage your business needs. Desert Micro produces proven solutions, customized to fit your business.

Dings Company Magnetic Group

Milwaukee, Wisconsin

Ph: (414) 672-7830

Web site: www.dingsmagnets.com

Booth #320

Dings Company manufactures a complete line of electro and permanent magnets for ferrous and non-ferrous separation. Products consist of overhead magnets, drums, pulleys, plates, grates, and eddy current separators. Many custom options are available. Dings Company can design a build a magnetic separator to fit your application.

Ecovery LLC

Loxley, Alabama

Ph: (251) 272-3630

Web site: www.ecoveryllc.com

Booth # 426

Ecovery is Limited Liability Corporation that specializes in the process of recycling e-scrap, wire, cable, radiators and other products that contain recyclable commodities. They are also an importer of specialized equipment that allows them to provide systems and equipment for all types of electronic waste and scrap that has ferrous, nonferrous and plastic components.

ECS Refining - Platinum Sponsor

Santa Clara, California

Ph: (408) 988-4386

Web site: www.ecsrefining.com

Booth # 206-207

ECS Refining is a recycler of a broad spectrum of metal bearing scrap, residues and waste. The company recovers value from a wide variety of base and precious metals and from liquid and solid materials, using many different pyrometallurgical and hydro-metallurgical processing technologies. Processing takes place at ECS' recycling facilities in Santa Clara, California and Terrell, Texas. ECS Refining strives to be on the cutting edge of technological achievement in order to give each customer the best service possible.

Eldan, Inc. - Silver Sponsor

Sanborn, New York

Ph: (716) 731-4900

Web site: www.eldan.us

Booth # 204

Since 1956 Eldan, Inc. has been a leader in the ongoing technical development of machinery and methods for the processing of non-ferrous scrap, tires and other materials. Eldan is one of the few companies delivering equipment to the recycling industry that has its own production facilities. This enables information to be communicated quickly and accurately between the different departments, thereby ensuring the quality of the product and the flexibility of the production program.

Electronic Recyclers International, Inc. – Gold Sponsor

Fresno, California

Ph: (800) 884-8466

Web site: www.electronicrecyclers.com

Booth # 105

Electronic Recyclers International (ERI) is the Largest Electronics Recycler in North America. ERI has locations in the following states: California, Colorado, Indiana, Massachusetts, Texas and Washington. ERI specializes in the environmentally safe and socially responsible recycling of electronic waste. ERI has the Highest Capacity and Most technologically Advanced E-Waste Shredding System in the world, thus providing our customers with a maximum economic benefit and maximum commodity return. All electronics sent to ERI are 100% recycled into 3 main commodities: Metals, Plastic and Glass. No electronics are placed in landfills and nothing is illegally exported to other nations.

Environmental Resources Management Group, Inc.

Austin, Texas

Ph: (512) 459-4700

Web site: www.erm.com

Booth # 319

ERM's reputation as the world's leading consulting firm in electronics disposition management is built on 4 years of experience assisting our global Original Equipment Manufacturer (OEM) and Electronics Recycler clients manage the risks associated with the recycling and reuse of used electronic equipment. Taking advantage of our global footprint, we have provided value to our clients with local expertise with domestic and international laws and regulations, industry standards and requirements, and the emerging e-recycling certifications. Whether you are an OEM wishing to establish a responsible recycling vendor management and downstream auditing program capable of claiming EPEAT End of Life Management points or an electronics recycling company committed to R2 or E-stewards certification, ERM has the professional expertise and global footprint to help you achieve your goals. Environmental Resources Management is one of the world's leading providers of environmental consulting services, with over 135 offices in 41 countries, employing over 3,000 staff. ERM is committed to providing a service that is consistent, professional and of the highest quality.

eRecycleSoft, LLC

Austin, Texas

Ph: (512) 799-0291

Web site: www.eRecycleSoft.com

Booth # 412

eRecycleSoft, LLC offers a complete software solution for the material processing firms in the electronics recycling industry. eRecycleSoft specializes in providing controls for the acquisition, processing and disposition of recyclable material through flexible, detailed functionality. The purchasing, receiving, processing, sales, shipping and extensive reporting features allow eRecycleSoft unprecedented material management capabilities and customer service. eRecycleSoft provides key metrics to improve staff and management effectiveness resulting in increased profits and better customer service.

ERIEZ

Erie, Pennsylvania

Ph: (814) 835-6000

Web site: www.eriez.com

Booth #108

Eriez is a world leader in magnetic, vibratory inspection and floatation technology for the processing and metalworking industries. The company designs and manufactures equipment to move, remove or concentrate material; feed, screen or convey materials; and inspect product through metal detection and x-ray technology.

ERS (Environmental Reclamation Services)

Erie, Pennsylvania

Ph: (814) 464-1800

Web site: www.ersusa.com

Booth # 129

ERS offers a reliable and responsible solution to the e-waste industry for reuse of empty printer cartridges. Founded in 1990, ERS purchases large volumes of empty printer cartridges from locations around the world. These products are then distributed to the world's largest remanufacturing companies for recycling and placed back into the consumer market. With a proficient and knowledgeable broker team, ERS' competitive buyback structure assures suppliers they are getting the highest market pricing. ERS' professional staff is committed to vendor satisfaction and trustworthy business relationships. From your door to theirs, ERS manages all aspects of the transaction, including logistics and reporting. The company's Web-based applications allow customers access to online details of all transactions. Now is the time to let ERS handle your empty printer cartridge supplies. Contact a member of the ERS purchasing team today!

E-Scrap News

Portland, Oregon

Ph: (503) 233-1305

Web site: www.e-scrapnews.com

Booth # 104

For the last decade, E-Scrap News has been at the forefront of the electronics recycling industry, reporting on new processing technologies, producer responsibility programs, legislation, environmental issues, markets, and a host of other topics. In addition to publishing weekly electronic newsletters, monthly newsletters and quarterly magazines, ESN is proud to sponsor the annual E-Scrap Conference.

E-Structors, Inc.

Elkridge, Maryland

Ph: (410) 379-3098

Web site: www.e-structors.com

Booth # 215

E-Structors specializes in the secure destruction and 100-percent recycling of computers, electronics and documents using state-of-the-art processing systems.

Export Global

Hillsboro, Oregon

Ph: (503) 681-2120

Web site: www.exportglobal.com

Booth # 113

Export Global has been exporting commodities globally for a decade. As a leader in downstream due diligence we provide our customers with the security of knowing their materials are being properly handled. Export Global buys and sells a wide variety of scrap, specializing in non-ferrous, ferrous scrap metal, and electronics thanks to a global market share. The company buys from both domestic and international vendors.

Fortune Plastic & Metal

Jersey City, New Jersey

Ph: (201) 333-3339

Web site: www.fortunegroup.com

Booth # 222

Fortune Plastic & Metal provides plastics and metal recycling, and component to resale from 19 facilities across China, Mexico and the U.S. The company also provides WEEE-compliant reporting.

Gannon & Scott

Phoenix, Arizona and Cranston, Rhode Island

Ph: (401) 463-5550

Web site: www.gannon-scott.com

Booth # 325

Gannon & Scott, a leading refiner and assayer of precious metals since 1919, has received the International Organization for Standardization (ISO) 9001:2000

Certification for its analytical laboratory that performs chemical and spectrochemical analysis and fire assays. Gannon & Scott's processing techniques have been developed in order to provide customers with the highest return possible, while utilizing the most technologically advanced equipment. With precious metals refining facilities in Phoenix and Cranston, Gannon & Scott is able to provide geographical advantages for customer services on both coasts and Mexico. Both facilities are in full compliance with the regulations issued by the EPA, the Department of Transportation and local environmental Management offices.

Global Electric Electronic Processing (GEEP) – Gold Sponsor

Barrie, Ontario

Ph: (705) 725-1919

Web site: www.geepglobal.com

Booth # 327-328

Global Electric Electronic Processing is a global leader in e-waste recycling, offering complete (re-use to end-of-life) recycling solutions utilizing a closed-loop system. GEEP's worldwide joint venture partners, fully auditable, environmentally-friendly-based processes, and state-of-the-art proprietary equipment enable the recycling of waste to commodities with a zero-landfill objective. GEEP has been recognized with national and provincial awards for its ISO 9001 management and ISO 14001 environmental standardization.

Global Electronic Recycling – Gold Sponsor

Phoenix, Arizona

Ph: (623) 869-0733

Web site: www.globalelectronicinc.com

Booth #131

Global Electronic Recycling has vastly improved corporate environmental compliance, while saving the environment for over a decade. Located in Phoenix, Arizona, with multiple secure locations, you can be confident your e-waste, overstock, or obsolete electronics are protected and properly recycled. Global's zero landfill approach ensures corporate and social responsibility. Go green and improve corporate downstream, join numerous Fortune 500's, U.S. military and government agencies who benefit financially by partnering with Global.

Global Link Technology

Centennial, Colorado

Ph: (866) 481-6667

Web site: www.globallinktechnology.com

Booth # 311

Nobody is more suited to offer maximum profitability for used technology than Global Link Technology. By leveraging their unique company-owned retail store network and their advanced multi-platform end-user e-commerce capabilities, Global Link Technology is positioned to offer maximum value for used technology assets. In

addition to their remarketing abilities, Global Link Technology provides uncompromised asset and data security, advanced reporting, environmentally safe recycling, and much more. Since 1992, their reputation for integrity, innovation, value, and service has been unparalleled. Team up with Global Link and maximize your profitability.

Goodwill Industries International

Rockville, Maryland

Ph: (301) 530-6500

Web site: www.goodwill.org

Booth # 221

Goodwill generates opportunities for people to achieve economic stability and build strong families and vibrant communities by offering job training, employment placement services and other community-based programs for people who have a disability, lack education or job experience, or face employment challenges. One of North America's most recognized nonprofit organizations and a leading social services enterprise, Goodwill is a network of 183 community-based, independent agencies in the United States, Canada, and 14 other countries. To pay for its programs, Goodwill sells donated clothes and other household items in more than 2,300 retail stores, and online at www.shopgoodwill.com. Local Goodwills also build revenue and create jobs by contracting with businesses and government to provide a wide range of commercial services, including but not limited to e-cycling/recycling, packaging and assembly, food service preparation and document imaging and shredding. In 2008, 1.5 million people in the United States and Canada benefited from Goodwill's career services and more than 172,000 obtained job placement. Goodwill channels 84 percent of its revenues directly into its programs and services. To find your local Goodwill, use our online locator at www.goodwill.org or call (800) 664-6577.

Henry A. Wiltschek Inc.

Stoney Creek, Ontario

Ph: (888) 518-8469

Web site: www.hawiltschekinc.com

Booth # 211

Henry A. Wiltschek Inc. manufactures CanSort Air-Less Metal Sorting and Quality Rare Earth High Strength Neodymium Eddy Current Separators, Head Pulleys, Magnetic Drum Separators and a complete line of Magnetic Products. Sorting Machines are designed for the economical sorting of shredded ASR, ferrous and non-ferrous metals, FINEs metal recovery and for the e-scrap processors.

Herbold Meckesheim USA

Smithfield, Rhode Island

Ph: (401) 232-3354

Web site: www.herboldusa.com

Booth # 421

Herbold Meckesheim USA is a world leader in the design, manufacture and installation

of a wide range of size reduction equipment for the plastics and recycling industries. Products are used in a variety of applications from traditional to innovative and include: granulators, shredders, pulverizers, plastcompactors, wash lines, thermal dryers and fully integrated systems.

HOB International, Inc. - Silver Sponsor

Batavia, Illinois

Ph: (632) 761-0500

Web site: www.hobi.com

Booth # 109

HOB International is a full-service asset management and electronics recycling company. HOB operates processing facilities in the Chicago and Dallas metro areas.

Institute of Scrap Recycling Industries (ISRI) – Platinum Sponsor

Washington, DC

Ph: (202) 662-8500

Web site: www.isri.org

Booth #101

The Institute of Scrap Recycling Industries, Inc. (ISRI) is the "Voice of the Recycling Industry." ISRI represents over 1,500 companies in 21 chapters nationwide that process, broker and consume scrap commodities, including electronics, metals, paper, plastics, glass, rubber and textiles. Headquartered in Washington, D.C., the Institute provides education, advocacy and compliance training, and promotes public awareness of the vital role recycling plays in the U.S. economy, global trade and environment.

Integrated Recycling Technologies

Monticello, Minnesota

Ph: (763) 295-6992

Web site: www.irtmn.com

Booth # 416

Integrated Recycling Technologies accepts all types of automotive and electronic scrap for reclamation. They process e-scrap, catalytic converters, precious metals, and non-ferrous metals such as copper, aluminum and non-ferrous engine parts.

International Baler Corporation

Jacksonville, Florida

Ph: (800) 231-9286

Web site: www.intl-baler.com

Booth # 407

International Baler Corporation offers the widest range of baling equipment in the industry. Each piece of equipment can be customized to fit your specific application and adapt as your company grows.

Interstate Battery System of America

Dallas, Texas

Ph: (972) 715-6694

Web site: www.interstatebatteries.com

Booth # 115

Interstate Batteries has been recycling batteries since their inception in 1952. They have a well-established, comprehensive, program that makes battery recycling virtually risk free. Their client-customized program helps reduce regulatory risks, and makes it cost-effective, if not profitable, to safely recycle your lead-acid battery waste streams. The company provides a centralized process that manages the orders, makes payments, and maintains detailed records.

JB Micro Inc. – Silver Sponsor

Hayward, California

Ph: (510) 887-7775

Web site: www.jbmicro.com

Booth # 225-226

JB Micro Inc. is a global supplier of secondary computer components and provides computer components in large volumes at much lower cost globally. They offer competitive pricing and unsurpassed value. Since 2004, JB Micro has been involved in procuring components from secondary channels and selling it globally, starting with pulled components — Memory, HDD & CPU's and added laptop components like screens, optical drives, batteries and adapters. Recently they have added services for component harvesting and recycling companies. These services are based on the expertise developed by the company for last five years for auditing, testing & packaging of components in large volume. They also provide data destruction services according to DOD standards. JB Micro has an installed capacity of wiping 10,000 drives per month.

J K A Logistics

The Woodlands, Texas

Ph: (281) 363-9419

Web site: www.jkalogistics.com

Booth # 309

J K A Logistics provides specialized logistic services for the electronic recycling industry. Their scope of operations is all inclusive from picking up loose equipment in office buildings to packing it up and transporting it to its final destination. J K A Logistics can handle any size job in the U.S., Canada, Mexico, and/or the Caribbean.

LG Electronics - Gold Sponsor

Englewood Cliffs, New Jersey

Ph: (800) 243-0000

Web site: www.lgusa.com

Booth # 128

LG Electronics USA, Inc., based in Englewood Cliffs, N.J., is the North American subsidiary of LG Electronics, Inc., a global force and technology leader in home appliances, consumer electronics and mobile communications. In the United States, LG Electronics sells a wide range of stylish, innovative digital appliances, consumer electronics (digital display and digital media) products and mobile phones under LG's "Life's Good" marketing theme. For more information, please visit www.LGusa.com.

Lubo USA / Van Dyk Baler Corp.

Stamford, Connecticut

Ph: (203) 967-1100

Web site: www.lubousa.com and www.vandykbaler.com

Booth # 214

Lubo USA is the exclusive U.S. and Canadian distributor responsible for the design, manufacturing, installation and service of Lubo and TiTech Recycling Machinery. TiTech offers a wide range of e-scrap sorting technologies. By using optical, NIR, color detection, metal detection and X-ray technologies in e-scrap recycling, TiTech has the capability to separate complex material streams, while allowing for the highest purity and recovery rates. Lubo USA is the exclusive U.S. and Canadian Distributor of Lubo and TiTech Recycling Equipment.

Makor Solutions

Minneapolis, Minnesota

Ph: (952) 922-2975

Web site: www.makorsolutions.com

Booth #117

The RMA ERP Platform provides Electronic Recyclers with state-of-the-art tools to automate the handling of electronic waste material from pickup to disposal. A robust and customizable production and inventory management module is reinforced by CRM, Client/Vendor/Partner Portals, Dashboard Reporting & Remarketing Web Site modules. RMA easily integrates with Quickbooks, MOA and Outlook. The integrated RMA approach provides a tremendous business payback from one end of your organization to the other - Compliance, Efficiency, Responsiveness, Safety & Profitability.

Metal Conversion Technologies, LLC

Cartersville, Georgia

Ph: (678) 721-0022

Web site: www.metalconversion.com

Booth #111

Metal Conversion Technologies, LLC is a family owned and operated business that is now exclusively for providing superior customer service. Since 2003, Metal Conversion Technologies has grown to be the second largest rechargeable battery recycler in North America and has recycled more than 2,000 tons of batteries. They are on track to recycle an additional 1,100 tons this year.

MeWa Recycling

Gechlingen, Germany

Ph: 0049-7056-925-0

Web site: www.mewa-recycling.com

Booth #110

MeWa Recycling is Europe's largest e-waste recycling equipment manufacturer. Their approach to e-scrap starts with the design and manufacture of specialized "dismantlers" for that waste stream. Their proprietary and patented technology allows you to hand-sort the material flow and separate it with just one shredder. A unique and cost-effective system that offers high availability, low maintenance, low wear and tear, and the lowest electrical consumption in the industry. Don't miss it.

Mextek, LLC

Arlington, Texas

Ph: (214) 960-2857

Web site: www.mextek.com

Booth #112

Mextek, LLC is an innovative electronic equipment recycling organization that receives computer components from all over the United States for processing into reusable components or raw material commodities for remanufacturing. Concentrating on realizing the optimum reuse of component parts harvested from obsolete, surplus or damaged electronic equipment, Mextek has developed unique methods to process computer plastics into recycled plastic pellets for new product manufacturing and is expanding its operation to meet growing demand.

MRT System International AB

Karlskrona, Sweden

Ph: +(46) 455 302870

Web site: www.mrtsystem.com

Booth # 123

MRT provides a full range of recycling machines for fluorescent lamps and for mercury recovery. MRT also provides equipment for the separation of CRTs. We believe in the recovery and reuse of by-products from lamps waste such as glass, metals, plastics, etc. MRT has been manufacturing lamp recycling equipment and mercury recovery systems for more than 30 years and has contributed to lowering the mercury pollution rate around the world.

MSS, Inc.

Nashville, Tennessee

Ph: (615) 781-2669

Web site: www.magsep.com

Booth # 208

MSS designs, manufactures and services automated optical-sorting equipment for engineering plastics (ABS, HIPS, PC) and metals (ferrous, non-ferrous and stainless).

Newtech Recycling, Inc.

Somerset, New Jersey

Ph: (732) 564-3110

Web site: www.newtechrecycling.com

Booth # 411

Established in 1995, NewTech Recycling is a privately owned corporation specializing in providing end-of-life services for the disposal and resale of electronic and computer equipment. Since inception, Newtech has focused on environmentally sound methods of equipment disposition, with an emphasis on protecting clients from any long-term liabilities. They operate a 74,000-square-foot facility, which houses demanufacturing equipment, and a technical and administrative team.

NRT

Nashville, Tennessee

Ph: (615) 734-6400

Web site: www.nrtsorters.com

Booth #324

NRT develops, manufactures, and maintains specialized sorting machines. These machines are used in the recycling of plastics, metal, and mixtures of numerous materials. NRT integrates the technologies of computerized polychromatic color identification, object recognition, NIR, x-ray technology including sophisticated multiple-energy x-rays, and inductive metal detection. NRT equipment is applied to special separation tasks to obtain high purity with low product loss.

Nulife Glass

Stourbridge, United Kingdom

Ph: +44 (0)1384 898810

Web site: www.nulifeglass.com

Booth # 121

Nulife Glass sells the only commercially available CRT recycling system which removes the toxic lead from the glass in a safe and environmentally sustainable way; producing high purity lead bars and clean glass suitable for use in a range of end products. The process has no emissions and creates no waste, and avoids export of hazardous material around the globe.

Perry Johnson Registrars, Inc.

Southfield, Michigan

Ph: (248) 358-3388

Web site: www.pjr.com

Booth # 120

Perry Johnson Registrars, Inc. (PJR) is a full-service registrar that carries multiple international accreditations. PJR has the authority to register organizations, recognizing them for their quality management system's integrity. At PJR, they understand the importance of ISO 9000 registration and are dedicated to helping an organization achieve its goals.

PN California, Inc.

Bellflower, California

Ph: (562) 866-8581

Web site: <http://www.pncalifornia.com>

Booth #315

PN California provides total solutions for electronic recycling and asset management services. They recycle, resell and refurbish electronic equipment.

Product Stewardship Institute

Boston, Massachusetts

Ph: (617) 236-4822

Web site: www.productstewardship.us

Booth # 427

The Product Stewardship Institute (PSI) is a national non-profit membership-based organization located in Boston, Massachusetts. PSI works with state and local government agencies to partner with manufacturers, retailers, environmental groups, federal agencies, and other key stakeholders to reduce the health and environmental impacts of consumer products. PSI takes a unique product stewardship approach to solving waste management problems by encouraging product design changes and mediating stakeholder dialogues. PSI is working with state and local government agencies to pass electronics product stewardship legislation, and is also working with U.S. Congressional leaders to develop national electronics waste management legislation that will be consistent with state laws.

PSC Environmental Services

Houston, Texas

Ph: (713) 623-8777

Web site: www.pscnow.com

Booth #323

PSC is a national provider of electronic waste recycling and hazardous waste management services. Our processes are fully audited and comply with the highest industry standards. PSC services are backed by the security, sustainability, and contractual indemnity that only a provider of our size and experience can provide.

QMI - SAI Global

Cleveland, Ohio and Toronto, Ontario

Ph: USA (216) 654-0900 CAN (416) 401-8700

Web site: www.qmi-saiglobal.com

Booth # 424

QMI - SAI Global can be instrumental in the success of your EMS. Their auditors are trained, capable and motivated to bring value and credibility to your EHS&S management system, while assessing its conformity to the standard. The firm also routinely offers integrated environmental, quality and health and safety audits. With more than 800 auditors and 24,000 registrations worldwide, QMI - SAI Global is a global leader committed to exceptional customer service and advancing business excellence.

R2/RIOS Certified Electronics Recyclers

Washington, DC

Ph: (202) 662-8533

Web site: www.isri.org/electronics

Booth # 102

The R2/RIOS Certified Electronics Recyclers brand is a program offered by the Institute of Scrap Recycling Industries (ISRI) that combines the Responsible Recycling (“R2”) Practices and the Recycling Industry Operating Standard (RIOS). RIOS is the recycling industry’s integrated management system standard for quality, environment, and health and safety. R2 and RIOS certifications are ANAB-accredited. The R2/RIOS Certified Electronics Recyclers program provides a “one-stop shop” for electronics recyclers seeking certification as responsible electronics recyclers.

Reverse Logistics Association

Lehi, Utah

Ph: (801) 206-0090

Web site: www.reverselogisticsassociation.org

Booth #314

Reverse Logistics Association (RLA) is a trade association focused on third-party service providers (3PSPs), which OEMs and retailers outsource. RLA monitors thousands of 3PSPs worldwide, who provide aftermarket supply-chain services, while supporting the outsourcing needs of OEMs, ODMs, and branded and retail companies.

ROUND2 – Platinum Sponsor

Grand Prairie, Texas

Ph: (817) 701-1200

Web site: www.round2.net

Booth #232-233/302-303

Round2 is a leading e-recycling service provider offering a wide range of integrated asset disposition and technology recovery solutions. Round2’s revenue-based recycling services allow clients to better manage their end-of-life asset retirement process, technology rotation and data security requirements, while maximizing economic returns.

RRT Design & Construction

Melville, New York

Ph: (631) 756-1060

Web site: www.rrtenviro.com

Booth #305

RRT Design & Construction provides turn-key systems to automate the recycling of end-of-life products and components. Systems are designed to help processors reduce their operating costs and comply with all environmental and OSHA regulations.

Schutte-Buffalo Hammermill, LLC

Buffalo, New York

Ph: (800) 447-4634

Web site: www.hammermills.com

Booth # 425

Leaders in size-reduction machinery manufacturing for more than 80 years, Schutte-Buffalo Hammermill will be exhibiting The E-Cycler, the only hammermill designed specifically for electronic scrap recycling and confidential destruction. Whether your aim is to recycle electronic components for precious metal reclamation or provide secure destruction of confidential information, the E-Cycler is the product of choice. Visit Schutte-Buffalo's booth to learn more about how custom engineering, and its free test grinding services, can insure that your unique requirements are met.

SDS Logistics Services - Platinum Sponsor

U.S. and Canada

Ph: (330) 759-8066

Web site: www.sdslogistics.com

Booth # 333

SDS Logistics Services provides truck-load, drop-trailers, drayage, bi-modal (rail), LTL and on-site pack-n-move from coast-to-coast throughout the U.S. and Canada. SDS also provides support and consulting for public collection event logistics.

SGM Magnetics

Manerbio, Italy

Ph: +(39) 030-9938400

Web site: www.sgm-magnetics.com

Booth # 116

SGM Magnetics is located in the industrial heart of Northern Italy, where high concentrations of competitive steel mills are located. SGM has continuously been developing its magnetic equipment technology by closely working with and being highly sensitive to the needs of steel mills all over the world. This close relationship with the steel industry has permitted SGM to become a leader in lifting magnets and magnetic separation equipment. The dynamic strength of SGM has always been to provide the most advanced technology to its customers while optimizing the safety of magnetic handling and improving productivity. SGM, always in close contact with its worldwide

customers, continues to bring new innovative solutions to satisfy new challenging conditions whilst maintaining the SGM image: Safety, productivity, reliability.

SGS Systems & Services Certification

Rutherford, New Jersey

Ph: (519) 250-4471

Web site: www.us.sgs.com

Booth # 125

SGS is the world's leading certification and verification body. SGS verifies and accredits electronics recycling organizations to RIOS, R2, ISO 14001, OHSAS 18001, and ISO 9001. Their auditors hold a wealth of electronics recycling experience and are cross-trained to a variety of environmental and health & safety standards, allowing SGS to provide cost effective integrated audits for our recycling clients. SGS currently verifies electronics recycling programs internationally including the Canadian Electronic Stewardship Program, the EU Member States' WEEE Directive, and Germany's ElektroG certification.

Shred-Tech - Silver Sponsor

Cambridge, Ontario

Ph: (519) 621-3560

Web site: www.shred-tech.com

Booth #132

Shred-Tech is a world leader in information destruction and reduction solutions. The company designs and manufactures reduction systems and shredding machinery to cost-effectively solve the world's most difficult waste reduction and recycling problems. Shred-Tech has installed more than 2,000 shredding and recycling systems worldwide and is recognized globally for its first-class products and its commitment to engineering innovation and quality.

SMS Memory Module Assembly, Inc.

Napels, Florida

Ph: (239) 354-1230

Web site: www.smsassembly.com

Booth # 406

SMS Memory Module Assembly was founded in 1989 and is a leading distributor/wholesaler of new and off lease computer memory modules. They have grown to have a strong presence in the computer electronics industry, while continuing to progress with the market demands and realizing that electronics are constantly evolving.

Southern Waste Information eXchange, Inc. (SWIX) – Silver Sponsor

Tallahassee, Florida

Ph: (800) 441-7646

Web site: www.swix.ws

Booth # 414

SWIX is a non-profit clearinghouse and repository for industry concerning information on market development, recycled products, hazardous waste management, legislation, waste management technologies and more.

SSI Shredding Systems, Inc.

Wilsonville, Oregon

Ph: (503) 682-3633

Web site: www.ssiworld.com

Booth #106

SSI Shredding Systems designs and manufactures size-reduction solutions to meet a broad range of material processing requirements in industrial, municipal and hazardous settings.

STAR Plastics, Inc.

Millwood, West Virginia

Ph: (304) 273-0352

Web site: www.postconsumerplastic.com

Booth # 403

Star Plastics operates as a manufacturing segment and the primary sales arm of parent company SDR Plastics, Inc. The organization has more than 20 years experience in recycling and compounding engineering grade plastics. They maintain an ISO 9001 registration covering all of their production and quality assurance operations.

Steinert US, LLC

Clearwater, Florida

Ph: (727) 573-2482

Web site: www.steinertus.com

Booth #220

Steinert US is the North American headquarters for Steinert separation equipment, parts and service. A world leader in separation technology, Steinert manufactures a full line of magnets, eddy current and sensor sorting separation systems perfect for the e-scrap industry. Steinert excels in bringing superior technology to each customer's unique conditions. Steinert US also provides ongoing technical expertise, parts and service to keep customers' processes running smoothly and efficiently.

swissRTec AG

Kreuzlingen, Switzerland

Ph: (41) 71 686 80 40

Web site: www.swissRTec.ch

Booth # 419

swissRTec AG builds state-of-the-art WEEE recycling plants and machines. The core

competence of swissRTec is the shredding, delamination and separation of composite materials such as WEEE, circuit boards, cables, hair wires, car fluff, white goods, tires and the like. With the Delamination Mill (centrifuge) a milestone has been set in the field of composite material recycling. swissRTec represents EIDAL Kubota Vertical Shredder, at large scale throughputs this machine outperforms all other shredding technologies.

Technology Conservation Group

Lecanto, Florida

Ph: (352) 527-2534

Web site: www.tcgreycling.com

Booth # 212

Technology Conservation Group is a multi-site ISO 14001:2004 asset recovery and electronics recycling company dedicated to providing maximum returns on excess/obsolete inventory and processing environmentally sensitive material to the highest standards while not jeopardizing the integrity of your material.

TechSoup Global

San Francisco, California

Ph: (415) 633-9308

Web site: www.techsoup.org

Booth # 418

TechSoup Global is a San Francisco-based nonprofit whose main work is to supply nonprofits, NGOs, and libraries worldwide with the computer software, hardware, and know-how they need at the lowest possible costs. Over the last 12 years, TechSoup has also been helping develop the computer reuse field, chiefly by administering the Community Microsoft Authorized Refurbisher Program, which supplies \$5 Windows XP and Microsoft Office licensing to PC refurbishers and recyclers nearly everywhere in the world for computers that go to schools, charities, and low-income families. TechSoup also organizes the annual International Computer Refurbishers Summit, the next one of which will take place on October 14th and 15th, 2009 in Miami Florida (www.icrsconference.org).

Toxco Inc.

Anaheim, California

Ph: (877) 468-6926

Web site: www.toxco.com

Booth # 415

In business since 1984, Toxco Inc. has become the most diverse battery recycling company in the world. Toxco's facilities are approved and permitted, operating under strict guidelines from State and Federal environmental protection agencies and their processes are all based on certified recycling techniques for material recovery. Toxco's customers include environmentally conscious battery manufacturers, consumers, waste

management companies, industry, state & federal governments, and community service organizations.

Umicore - Gold Sponsor

Hoboken, Belgium

Ph: 32-3-821-71-11

Web site: www.preciousmetals.umicore.com

Booth # 433-434

Umicore Precious Metals Refining operates as one of the world's largest precious metals recycling facilities. They offer eco-efficient recycling and refining services for precious metal bearing materials, such as byproducts from other non-ferrous industries, consumer and industrial recyclable products (e.g. electronic scrap, spent auto catalysts, spent industrial catalysts, sweeps and bullions). Umicore recovers and sells precious metals (silver, gold, platinum, rhodium, iridium and ruthenium), special metals (indium, selenium and tellurium), secondary metals (antimony, tin, bismuth and arsenic) and base metals (lead, copper and nickel).

UNICOR, Federal Prison Industries, Inc. - Platinum Sponsor

Washington, D.C.

Ph: (202) 305-3758

Web site: www.unicor.gov

Booth # 402

Since 1994, UNICOR has become one of the premier electronics recyclers in the country. UNICOR accepts computers and peripherals, electronic equipment, obsolete electrical items, plus ferrous and non-ferrous metals.

UNTHA America

Newburyport, Massachusetts

Ph: (978) 465-0083

Web site: www.untha-america.com

Booth # 329

For over 30 years, UNTHA has been designing and manufacturing some of the world's best shredders for reducing waste by-products and recyclable materials. UNTHA's innovative, patented, four-shaft cutting technology is the industry's most efficient, automatic shredding system for creating precise, uniform pieces from a wide variety of manufactured materials.

WM Recycle America – eCycling Services - Gold Sponsor

Houston, Texas

Ph: (866) 588-0572

Web site: www.recycleamerica.com

Booth # 127

Waste Management Recycle America - eCycling Services operates the nation's largest

network of e-waste processing centers and drop-off locations, featuring multiple ISO 9001- and 14001-certified e-waste processing facilities. They are a founding member of the Basel Action Network's E-Stewards program and operate the national recycling take back programs for LG Electronics and Sony Electronics and feature drop-off locations in all 50 states. The WMeScrapTracker program provides convenient recycling options for businesses and consumers alike. Waste Management Recycle America looks forward to meeting you at E-Scrap 2009.

World Reuse, Repair and Recycling Association (WR3A) – Silver Sponsor

Middlebury, Vermont

Web site: www.wr3a.org

Booth # 107

The World Reuse, Repair and Recycling Association (WR3A) is a not-for-profit business consortium dedicated to "Fair Trade" standards for international electronics recycling. It acts like a co-op between overseas buyers and sellers of used electronics, for the reusable and repairable products which are explicitly legal under Basel Convention Annex IX.

Xstrata Recycling – Gold Sponsor

San Jose, California

Ph: (408) 998-4930

Web site: www.xstratarecycling.com

Booth # 429-430

Xstrata Copper and Xstrata Recycling are wholly owned subsidiaries of Xstrata LLC., a \$47 billion company. Xstrata Copper operates a primary custom copper smelter in Quebec, Canada, which was designed and is perfectly suited for processing complex materials such as concentrates and electronic scrap. The smelter can process 3,000 metric tons of material per day in an environmentally friendly way. Xstrata Recycling has offices in Canada, Malaysia, Mexico, Switzerland, and the U.S. Xstrata Recycling processes and coordinates the movement of material from Asia, Australia, Europe, the Middle East, and North and South America.
